

Endorsement Form Supporting the “Restore Our Border (ROB) Plan”

The 18 point plan, Restore Our Border, is a detailed report from the Arizona Cattlemen and Southern Arizona Ranchers on what must be done to secure our border. This Report is the culmination of over 18 months of meetings, research, fact finding and interviews regarding potential solutions to the current border crisis. The basis for this Report is to provide concrete actions which have been vetted as viable and needed along with measureable results regarding the implementation of these needed actions directly adjacent to the U.S./Mexico border.

- We call for the politicians and government officials to take the necessary steps to enforce are laws and protect our fellow Arizonans.
- We must put the necessary man power directly on the border to stop the foreign invasion.
- We must give law enforcement and the judicial system that ability to enforce every immigration law.
